QUALITIES WE OFFER

GE Solution is the trustworthy option for modular hospital facilities with a **wide range of bed capacity** between **50** and **500**

In all of our projects, we use **high-quality** and **long-lasting** steel construction systems

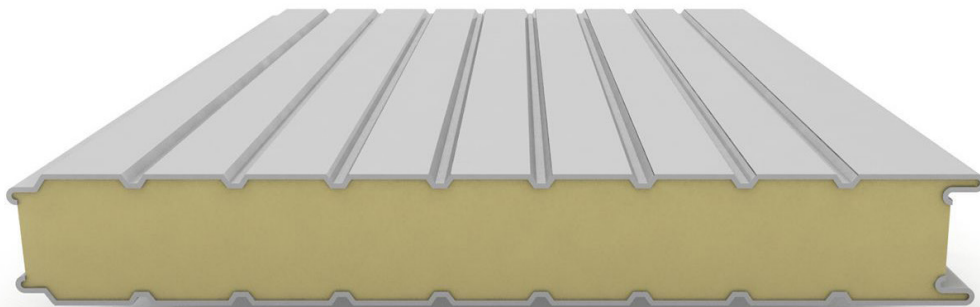

Since our designs are **modular**, it is possible to increase the capacity of facilities or transfer to another location when needed

Our systems can easily transform into **pandemic hospitals** thanks to separate room for each bed approach

Utilizing sandwich and composite panels in the coating of buildings for high **thermal insulation** increasing **energy efficiency** of the system

We use highly energy efficient **LED lighting systems** in our hospitals

With our hospital management infrastructure, we provide an information database keeping disease, diagnosis and treatment records for your use

Laboratory Module

We use highly effective **filtration systems** to purify the waste water which allows us to recycle water and reduce the pollution

1 Izgara Kanalı
Screen Channel

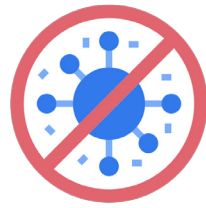

2 Önçöktürme Haznesi
Presettling Tank

3 Dengeleme Haznesi
Equalization Tank

4 Biyolojik Reaktör
PROSEPTIC Reactor

Our buildings are designed with **renewable solar energy** systems which is sufficient to cover electric consumption

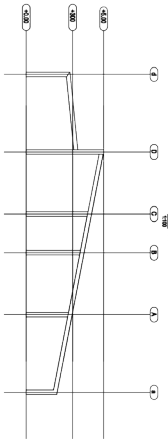

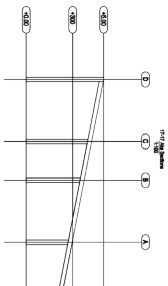

NO HOSPITAL-ACQUIRED INFECTIONS

Pioneering in the industry, we apply a layer of **antibacterial molecules** on every surface which prevents the spread of hospital-acquired infections
